

Spray Gun

- **Large Spray Pattern** for fast coverage
- **Waterborne Compatible** - 303 stainless tip, needle and service parts for compatibility with the newest waterborne material
- **Precision Engineered Fluid Nozzle** - Produces an extremely fine finish
- **Highly Efficient HVLP Design** - Complies with environmental regulation requiring high volume, low pressure, saving materials and very little overspray.

The **high performance (HP)** spray gun suitable for all waterborne and solvent-based materials

Item No.	Nozzle Size mm	Fluid Inlet Size	Cup Cap. c.c.	Weight kg/lb	Air Consumption LPM / CFM	Air Inlet inch	Working Pressure Bar / PSI

A2099 Digital Regulator

- The digital pressure display can help the painting system to provide precise color matches and reduce the orange peel.
- Working Pressure Range: 0 ~ 6.88 Bar (99.8 PSI)
- Weight : 90 g (0.198 lbs)
- **Calibration traceable to NIST**

94050 Air Hopper Gun

- Lightweight one piece aluminum body
- Apply Decking surface, fireproofing and waterproofing.
- Gun Creates 7 Different Texture Patterns
- Feed Type Size: Gravity
- Fluid Tip Size: 6.0 mm
- Cup Cap: 7L Hopper

95105 General Purpose Air Brush Kit

- Fluid Nozzle Size: 0.3 mm
- Spray pattern: 2 ~ 50 mm
- Feed Type: Suction
- Contents: Air Brush, 22 cc Jar Assembly, 5 cc Metal Color Cup, 50 cc Jar with Lid, 5 feet PVC Air Hose, Air Hose Adapter, Head Wrench, Hanger & Molded Case
